Dr. Edward Lin, CEO  
Ingenious Technologies Corp.  
1109 Millpond Ct.  
Osprey, FL 34229-8863

Dear Dr. Lin:

This letter is to express my enthusiasm for endorsing your O2ACE-Sys Wound treatment system. As a Professor and Director of the Southern Arizona Limb Salvage Alliance (S.A.L.S.A.), I very much appreciate new wound care technologies. Your device has significant promise to advance wound care. It not only provides NPWT but also allows for a myriad of other therapies to be delivered in an easy and efficient manner. This is not unlike an iPhone and "APP store" concept.

The savings to the healthcare system cannot be over emphasized. The benefit to the patients and their families who are required to transport their loved ones to receive wound care outside the home cannot be fully appreciated until a person becomes the patient or the caregiver of that patient.

I look forward to working with you in the future to make a difference for the patients we serve.

Sincerely,

David G. Armstrong, DPM, MD, PhD  
Professor of Surgery, University of Arizona  
Director, Southern Arizona Limb Salvage Alliance (S.A.L.S.A.)

DGA/sp
